A Call to Action: Changing the Face of the Energy and Environment Workforce

Thursday, August 5, 2021 | 4 – 6 pm | Hopin Virtual Events Platform

The energy and environmental fields continue to lag in all forms of diversity, despite the region’s ambitious climate goals and influx of high-growth industries like energy efficiency and renewable energy. Demonstrate your leadership by sponsoring this important event as we issue a call to action to ensure the economic benefits of New England’s clean energy transition are shared equitably among underrepresented groups.

Sponsorship of the Women Shaping the Agenda series helps NEWIEE provide educational and outreach opportunities for women in the energy and environmental sectors.
